

Xenopus Racks

Standalone *Xenopus laevis* racks

*The XS360 is a 3-shelf, single-rack holding system with recirculating filtration that can comfortably house over 100 adult *Xenopus laevis*. The water filtration system is designed to make sure your *Xenopus* thrive in the healthiest tank environment available.*

- 3-tier rack to maximize *Xenopus* holding capacity
- 316-stainless steel with levelling feet (rolling transport cart available)
- Four-stage filtration system with no-maintenance biofilter and undetectable levels of ammonia
- Adjustable flow control to each tank and each row of tanks with precision valves
- Durable polycarbonate tanks available in 21-liter or 50-liter sizes

AQUANEERING INCORPORATED

Superior Water Quality. Because your research depends on it.

The XS360 is a 3-shelf, single-rack holding system with recirculating filtration that can comfortably house over 100 adult *Xenopus laevis*. The XS360 features a new valve style, stainless steel UV, and a 316-stainless steel rack frame. Our fluidized bed bio-filter technology ensures superior water quality conditions including undetectable levels of ammonia and nitrite, making sure your *Xenopus* thrive in the healthiest tank environment.
